EXPERIENCE

• Application Development Project: University Project

Collaborated with a team of three to design and develop a desktop application using Java.

- Developed a backend database to manage a catalogue of vehicles, enabling users to select and view vehicle options.
- Implemented core functionality and conducted unit testing to ensure usability and system stability.
- Focused on designing a user-friendly interface and ensuring smooth user experience.

• Freelance Web Developer: Self-Employed

Developed a functional front-end website for a local business using HTML/CSS & JavaScript.

- Designed a responsive layout and implemented a login form to control user access.
- Implemented basic user authentication to secure purchasing features.
- Delivered a clean, user-focused design tailored to client requirements.
